

**WETIT**  
TEAT SPRAYING TECHNOLOGY

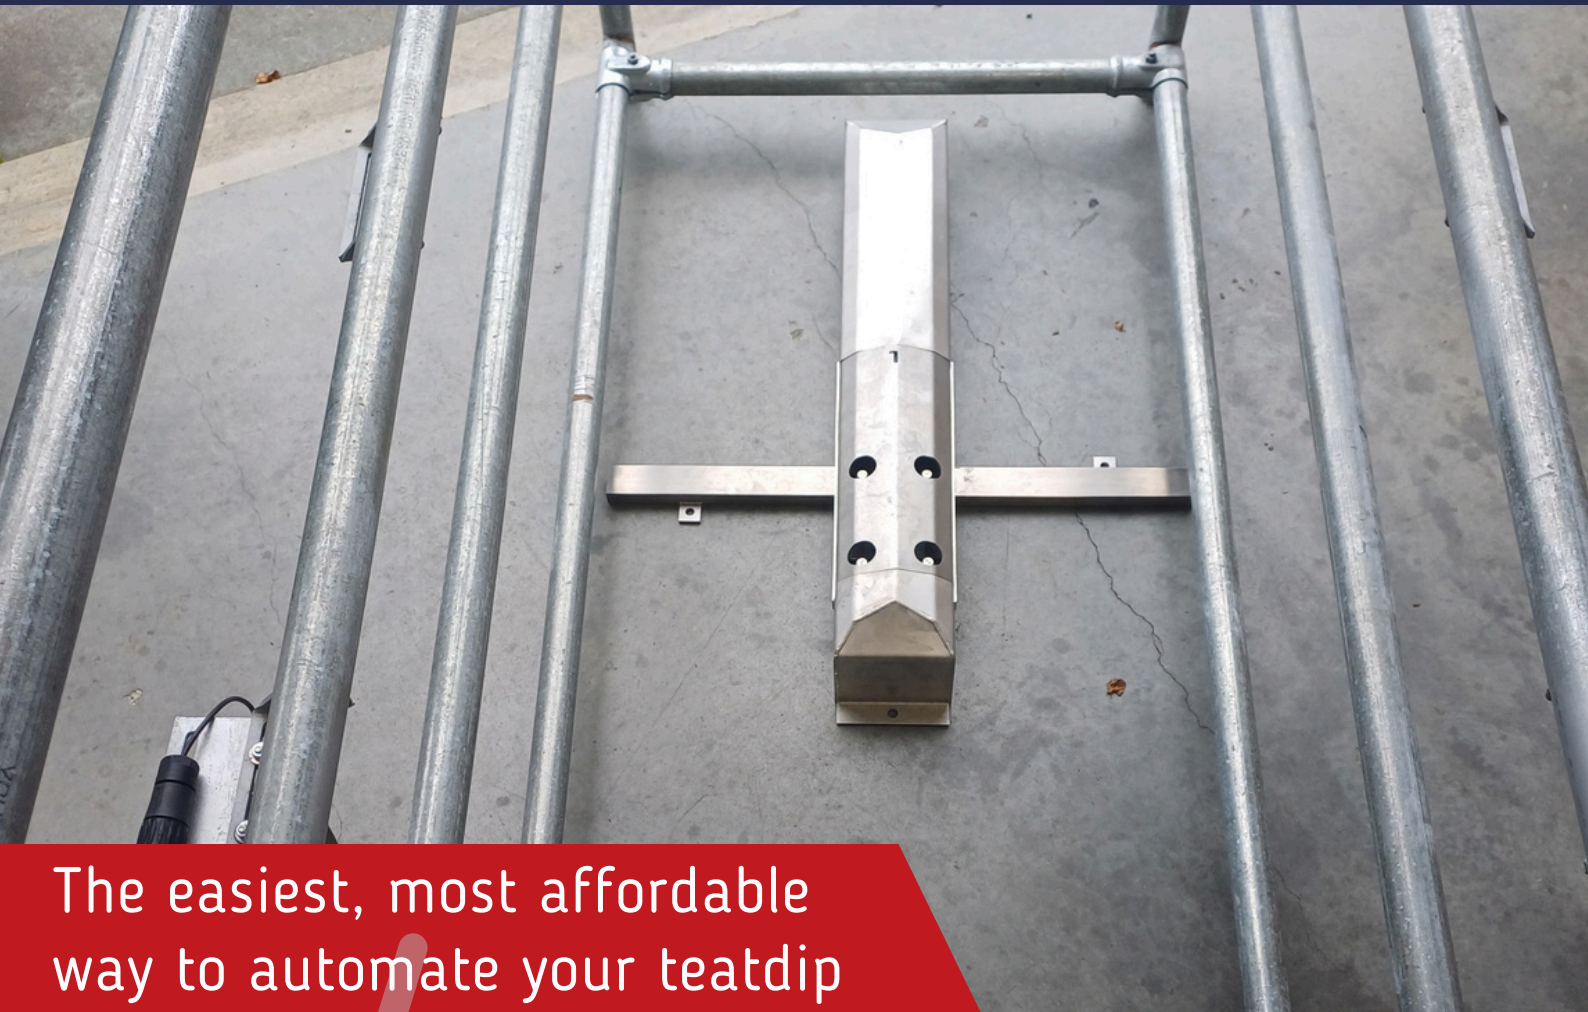

# **AWO: Automatic Walk-Over**

THE AFFORDABLE INTRODUCTION TO AUTOMATIC TEATDIP SPRAYING

*Easy self-  
install, low  
maintenance  
buy out of  
the box*

**Entry Level  
Model**

The easiest, most affordable way to automate your teat dip spraying.

Self-Install and Ready to Go

Wetit's AWO Auto Walk Over is our entry level teat dip sprayer.

Affordable and easy to install, you can see what a difference automation makes with minimal disruption to your milk process - and your wallet!

When you see how much easier automation makes milking, you can invest in our more advanced models with upgrade packs and add-ons, for even more benefits.

- **Easy pre and/or post teat dip spraying.**
- **Everything you need is in the box, with extras available.**
- **Robust and low maintenance.**
- **Compatible with all milking parlors.**

## What's in the box?

Spray arm, control box, 2x30m (98') cable, 1 x 30m (98') teatdip spray hose.

## Frame

If you don't have 2m (9') of race, you can purchase our pre-made frame to create a ready-to-go system!

## Extra Hose

30m (98') not enough?  
Need to replace old hose?  
Buy extra in 10m (33') lots as required.

## Extra Cable

30m (98') not enough?  
Need to replace old cable?  
Buy extra in 10m (33') lots as required.

**\*\*\*The AWO does NOT come with a fluid control pump\*\*\***  
if you don't have a suitable one on-farm, add one to your order or talk to the team about options for you.

## Automated Excellence in Dairying

**PAYS FOR ITSELF  
IN JUST 6 MONTHS**

Wetit automatic teat-dip spray technology is the industry standard, with decades of experience, development and testing behind us.

Our systems are highly accurate, affordable and ensure your cows are consistently sprayed every milking, saving time and money, and assisting in the prevention of mastitis and other teat health issues.

Wetit offers more precise and customisable teat spraying options, with superior adaptability for different herd sizes and flows. We're a better choice for dairy farms that need top-notch efficiency and udder health protection.

## WE ARE HERE TO HELP

The team at WETIT understands the concerns of managing a dairy farm. We are here to help you. Get in touch today.
